CUBE : THORSTEN DENNERLINE (DK/US)

Fernisering: 16.10.2009 kl. 17 - 20

Udstillingsperiode: 16.10. – 14.11.2009

The main thread that unites the projects of Thorsten Dennerline is that all works begins with an investigation of concepts that arise through an interest in words, poetry and the landscape. At Galleri Tom Christoffersen Cube, the artist will present prints, drawings and reworked photography.

There is a long tradition of manipulating photographs. Dennerlines reworking of the media is done with a conscious reference to his grandfather Asger Jorn – especially the project "Modifikationer" where Jorn painted on top of the paintings of others.

Small corrections and notes jotted down on top of documents and photographs – simple overlapping or mark making has been the focus of Thorsten Dennerlines works for many years. A serious approach to both everyday scribbles and more contemplative texts on life, which all is condensed in the careful works on paper.

Thorsten Dennerline (1972) is born in Denmark, lives and works Vermont (USA). Dennerline took his BFA Syracuse University Master of Fine Arts and his MFA at University of Massachusetts Bachelor of Fine Arts- Cum Laude. He has taught printmaking and drawing at several faculties of fine arts in USA. In 1996 he founded the publishers Bird Press, which has led to several collaborations with writers, poets - among others Peter Laugesen and Naja Marie Aidt.
